- 95 - Other Institute Fulfillment
- 96 - Item Is Received at Pickup Location

Standard Circulation Reports based on SQL are accessible from the GUI Circulation module.

Circulation transactions will be registered according to the setup of `tab_events.lng` of the administrative library.

23 Audio Warnings

For the Loan and Return windows, you can set the system to assign audio warnings to program events by editing the `circ.ini` file on the client, under the `[ErrorAction]` section.

To define an audio warning:

1. Make sure the sound you want to set is defined in Windows to produce an audio signal (checked for Windows NT / Windows 2000). Click **Start / Settings / Control Panel / Sounds and Multimedia**. For example, for Exclamation, select `chimes.wav`.
2. Check that you can hear sounds in your PC.
3. In `circ/tab/circ.ini`, in the `[ErrorAction]` section, type `Y,S,` at the end of the program event to which you want to assign an audio warning, together with the name of the sound you want. The syntax is:

```
<ProgramEvent>=<Y,S,SoundName>
```

For example:

NoUser=Y,S,Exclamation
NoBorrower=Y,S,Asterisk
ItemTransfer=Y,S,Beep

The following are the names of the program events for which you can define an audio warning:

NoUser=N
NoBorrower=N
LoanError=N
ReturnError=N
UserError=N
ItemError=N
ClaimReturn=N
LostReturn=N
LoanDenied=N
ReturnDenied=N
ItemTransfer=N
ItemRequested=N
LoanSuccess=N
ReturnSuccess=N
OnHold=N
UserVerification=N
RemoteReturn=N
ReturnIllLend=N
OnHoldReturn=N

The options for every sound are:

1. SoundName=N – No sound.
2. SoundName=Y,S, System sound name - This setting uses a system sound for the sound name. The list of available system sounds is listed below.
3. SoundName=Y,F, Sound file name - This setting uses a sound file for the sound name. The sound file should be placed in the Alephcom\Sound directory.

For example:

NoBorrower=N
NoBorrower=Y,S,Beep
NoBorrower=Y,F,RINGOUT.WAV

The available sounds at the moment are Windows standard sounds:

- QUESTION
- EXCLAMATION
- OK
- HAND
- BEEP
